

MERIN JOHN

Frontend Developer | React.js | JavaScript | MCA Graduate

merinjohnv@gmail.com | +91 6238163894 | [LinkedIn](#) | [GitHub](#) | Kerala, India (Remote)

PROFILE SUMMARY

MCA graduate and Frontend Developer with hands-on experience building responsive, interactive, and user-friendly web applications using HTML5, CSS3, JavaScript (ES6+), React.js, and Tailwind CSS. Skilled in component-based development, reusable UI components, REST API integration, asynchronous data fetching, state management, responsive design, form handling, debugging, and performance optimization. Proficient in Git, GitHub, Vite, and modern frontend development practices, with strong problem-solving, communication, and attention to detail.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive Web Design, CSS Grid, Flexbox
- React & JavaScript: React Hooks, useState, useEffect, useCallback, Component-Based Development, Reusable UI Components, State Management, Event Handling, Async/Await, Promises, Fetch API, JSON, Debouncing
- API & Web: REST API Integration, Data Fetching, Form Handling, Form Validation, Error Handling, Loading States, Dynamic Interfaces, LocalStorage, Accessibility
- Development: Clean Code, Debugging, Performance Optimization, Cross-Device Compatibility, Browser Compatibility, Unit Testing, Code Review, SDLC
- Tools: Git, GitHub, Vite, Vercel, VS Code
- Additional: Java, OOP, C, Data Structures, SQL, MySQL, SDLC, Unit Testing, Code Review

PROJECTS

[DevSpace — Blog Platform](#)

React.js | JavaScript | Tailwind CSS | React Router | LocalStorage

- Developed a modern responsive blog platform using React.js and Tailwind CSS.
- Implemented article search, category filtering, dynamic routing, bookmarks, and post creation.
- Used LocalStorage for persistent bookmarks and user-created posts.
- Built reusable React components and responsive interfaces for improved usability.
- Deployed the application using Vercel and maintained the project with Git/GitHub.

[Weather Dashboard](#)

React.js | JavaScript | Tailwind CSS | REST API | Vite | Vercel

- Developed a responsive weather application displaying current weather information and a 5-day forecast.
- Integrated the OpenWeatherMap REST API using Fetch API and asynchronous data fetching.
- Implemented React state management, loading states, error handling, dynamic weather information, and forecast rendering.
- Used Promise.all() for efficient forecast data fetching and Vite environment variables for API credentials.
- Deployed the application on Vercel with Git/GitHub version control.

[To-Do List](#)

React.js | Tailwind CSS | LocalStorage

- Developed a responsive task management application using React.js and Tailwind CSS.
- Implemented task creation, management, and persistent storage using LocalStorage.
- Designed a modern dark-themed interface with responsive layouts for different screen sizes.
- Used reusable React components and state management for interactive task handling.

EDUCATION

Master of Computer Applications (MCA) — CGPA: 8.53 / 10

Kristu Jyoti College of Management and Technology, Kerala | 2022 – 2024

Bachelor of Computer Applications (BCA) — CGPA: 7.43 / 10

Assumption Autonomous College, Kerala | 2019 – 2022

SOFT SKILLS

Problem Solving • Communication • Team Collaboration • Attention to Detail • Adaptability • Independent Work • Quick Learning • Ownership • Analytical Thinking
